Then you come to the right place, in **Parabellum Auto**, we have different types of headlights, Body Kits, Bed Covers, Intercoolers, Brakes, and auto Accessories. Not only this, but we also have to Blow off Valves, Exhausts, Performance Parts, and even Turbos. We have almost everything that can inspire you to customize and modify your vehicle in many different ways. At Parabellum Auto, we also build off-road trucks with great offloading capabilities so that you can take them wherever you want.

# Car Modifications

01 Performance Modification

02 Functional Modification

03 Aesthetic Modification

# Information

- 01** To increase the car's performance, you can boost its power and fuel efficiency. However, you can enhance the performance of the engine with turbo charging or supercharging.
- 02** From installing sunroofs to air conditioners, adding any functionality to your car falls under this category. The cars have built-in functionality. However, there is a kind of functionality that users want as an add-on so they can modify it according to their requirements.
- 03** To make the car beautiful or change its appearance thus aesthetic modifications are beneficial. From the external or internal appearance of the vehicle, it intends to make visual differences.

# Why You Need Car Modification?

## It Gives Extra Protection to Your Car

As you know, many environmental factors affect the appearance of the car. From fading the interior paints to scratches, everything starts changing with time as soon as the car hits the roads. However, maintaining is the most significant thing. So, from changing interiors to installing car wraps, these slight **modifications** give life to the car and provide extra protection.
